

THE 45

STUDY

45 and Up Study Follow-up Questionnaire for Men

The 45 and Up Study relies on the willingness of its participants to share information about their experiences and health, to provide knowledge that will help people live healthy and fulfilling lives for as long as possible. We are contacting you again because we need to find out more about your health and lifestyle and how these have changed in the recent past. Participation is completely voluntary, and you are free to withdraw from the Study at any time.

To participate in the Follow-up of the 45 and Up Study, please read the participant information leaflet, then fill in the questionnaire and consent form and return them in the envelope provided. Information from you, and from other people taking part in the 45 and Up Study, will allow researchers to answer key health questions facing Australia over the coming years.
