Summary of Modifications to the 45 and Up Study Baseline Questionnaire

Key:

- There has been a minor change to the format only of this question. Researchers using this question should be aware of the change, but are advised that data is not expected to be affected.
- There has been a change to this question which may affect data. Researchers using this question may need to consider this in their analysis.
- There has been a significant change to this question. It is highly likely that data will be affected. Researchers using this question are advised to consider this in their analysis.

Note that changes are respective to the previous version.

**NOTE:** V3 in the dataset also includes the additional versions 3A and 3B. However, the version-no variable does not differentiate between 3, 3A and 3B as the latter two versions have only minor modifications. These modifications are as follows:

**V3A:**
Question 14 (variables: currentsingle, currentmarried, currentpartner, currentwidowed, currentdivorced, currentseparated) instruction amended to read “please cross one box”

**V3B:**
Question 16 and 17 (variables: walktimesperweek, walktotalminweek, walktotalhrsweek, vigourtimesperweek, vigourtotalhrsweek, modtimesperweek, modtotalminweek, modtotalhrsweek) instructions amended to read “put “0” if you did not do this activity”.
